

# Hand Held Laser Line Tool

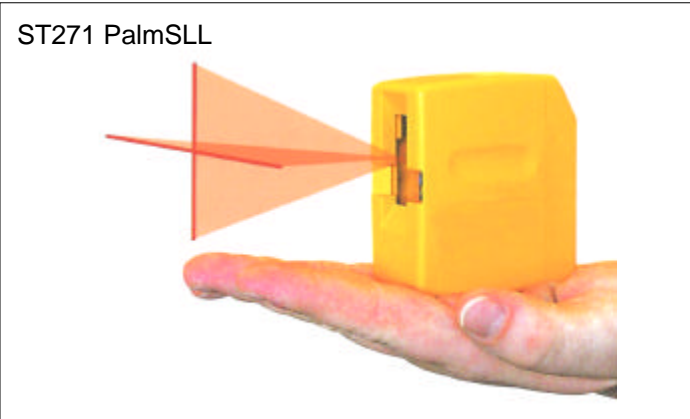

## ST271 PalmSLL

The ST271 PalmSLL self-leveling laser line tool provides plumb, level and square positioning alignment references. Fast, accurate and portable, the ST271 saves you time and money when your bubble vial level or rotary laser is too limited or too cumbersome for the job. Applications include SEN alignment.

## KEY FEATURES

- ◆ Self-leveling
- ◆ Bright crisp beams accurate to 1/8 inch at 30 feet
- ◆ More utility than a bubble vial level
- ◆ Compatible with ST271 wall bracket or tripod
- ◆ Battery operated, 3 AA
- ◆ Includes wall bracket and carrying pouch
- ◆ Brighter than most rotary lasers at a fraction of the cost
